Dear Mr. Braun:

I received your recent letter regarding the "Show Michigan the Money" transparency project. At this time, the East Grand Rapids Public School district is not planning to dedicate resources to posting this information on our district website. As we continue to develop our web capabilities in the future, we will keep your suggestion in mind.

We believe that our school district is already quite transparent; our check register is presented at every board meeting and is available at any time for anyone who would like to review and/or request a copy. This certainly includes the Mackinac Center for Public Policy and its representatives. As a public school district, we comply with every state and federal requirement as well as all open meeting act requirements.

Thank you,
