Child Care

For many families, the cost of safe, quality child care is a major strain on the budget. DHS' Child Development and Care Program may provide payment for child care services for qualifying families when the parent, legal guardian or substitute parent is unavailable to provide the child care because of employment, education and/or because of a health/social condition for which treatment is being received.

You may qualify if you need child care for:

- employment
- high school completion
- family preservation (treatment activity for a health or social condition)
