36.7 Annuity Withdrawal

A. The de facto operation of the Retirement System for the City of Westland since at least January 1, 1992, consists of a defined benefit plan commonly referred to as an annuity plan which have been treated by the parties to this Agreement and the Board of Trustees of the Retirement System as qualified plans, under the provisions of the Internal Revenue Code. The parties acknowledge that not all administrative procedures regarding operation of two plans were put into place prior to 1992. The parties will continue the qualified status of the two plans within the Pension Trust Fund and agree to take action which may be required by Internal Revenue Service rules and regulations and the tax laws to maintain qualified plan status of the defined benefit plan (pension plan) and the defined contribution plan (annuity plan) under Section 401(a) or any other applicable Section of the Internal Revenue Code. The parties agree to all requirements with respect to maintaining the plans as qualified plans. The parties will request, and cooperate with, the Board of Trustees to apply for qualified plan status determination letters for each (i.e. the pension and annuity) of the plans of the Retirement System. It is agreed that, other than additional administrative and processing costs and nominal actuarial costs, the action required by the City pursuant to this Section, shall not result in additional costs to the employer or the Pension Fund.

B. Both the Defined Contribution Plan and the Defined Benefit Plan of the Retirement System are intended to be a plan qualified under Section 401(a) of the Internal Revenue Code. The defined contribution plan provides for employer contributions to be made by the employer to the member's account, in amounts as determined by collective bargaining and any income, gains or losses as determined by investment performance, collective bargaining or the Board of Trustees, less expenses as determined by the Board of Trustee of the Retirement System.

C. Except as provided in Section 36.12, if a member makes an election, for lump sum withdrawal of defined contribution plan amounts, an annuity (defined contribution plan) portion of any retirement allowance shall be reduced by an amount which reflects the actuarial reduction (actuarial value of the withdrawn amount) so that this benefit does not result in an increase to employer costs to provide the total Retirement System benefit.

D. The defined contribution plan and the defined benefit plan together will provide the total retirement benefit payable per collective bargaining for union employees and established benefits for non-union employees.

E. This option is only available with respect to regular service retirement benefits and to disability retirants at the time they begin to receive benefits as if they were regular service retirants (i.e., same benefit computation) which occurs upon reaching age fifty-five (55) years with twenty-five years of service or per collective bargaining agreement. The Board of Trustees of the Retirement System will decide any issues with respect to this matter subject to applicable collective bargaining provisions, and shall adopt appropriate policies and procedures to implement this agreement which decision of the Board of Trustees shall be final and binding on all parties.

36.8 Duty Disability

A. If an employee retires under the duty disability provision of Act 345, he shall receive a pension equal to the base salary he received as an active member of the department. Said pension shall be recalculated as necessary to continue to provide a retired member eighty-five (85%) percent of the base pay of the classification from which he retired until he meets what would have been his normal age and service requirements necessary to receive a normal retirement. In the event the Internal Revenue Code is hereafter amended to adversely affect the taxability of Worker's Compensation benefits, to the extent that it does, then this provision shall be adjusted proportionally from 85% to 100% of base salary.

B. At the time the employee reaches what would have been his normal service requirements (25 years of combined service and duty disability pension), shall be calculated the same as a regular retirement pension.

C. Said disability retirement shall include the continuance of medical and life insurance plan of this and future contracts until the recalculations to normal retirement as described above or death, whichever comes first, providing the employee does not earn more than fifty (50%) percent of his base pay in other employment. In the event the employee earns more than fifty (50%) percent of his base pay, there will be a dollar-for-dollar offset for all earnings over fifty (50%) percent.

D. A duty disability retirant shall select an option within sixty (60) days after receiving his/her first duty disability retirement check. If the duty disability retirant is incapable of selecting an option within sixty (60) days, then the duty disability retirant or retirant's spouse or guardian may request a sixty (60) day extension of time in which to select an option. If the duty disability retirant does not select an option within the extended sixty (60) days, then the retirant's spouse or guardian shall make the selection if a duty disability retirant does not select an option prior to the retirant's death, then an option shall be selected as follows:

1. If the duty disability retirant was married at the time of disability and married to the same spouse at the time of death, the surviving spouse shall receive a pension equal to 60% of the regular retirement pension of the deceased retirant.

2. If the duty disability retirant was not married at the time of retirement and at the time of death, his/her or her youngest dependent child shall receive a pension equal to fifty (50%) percent of the regular retirement pension of the deceased retirant, until the child attains the age of nineteen (19), or graduates from post-high school education, but not to exceed the age of twenty-three (23).

36.9 In the event that the employee shall disagree with the finding of any City Doctor as to his medical condition, he can elect to obtain a medical opinion from some other doctor at his own expense. A Doctor shall be defined as an M.D. or D.O.

36.10 Military or police service shall not be creditable if it is, or would be, creditable under any other Federal, State or publicly supported retirement system.

36.11 The employee shall be obligated to pay the monies referred to in Section 36.5, 36.6 and 36.7 at the same time as when the City pays to the employee his last check for wages and other benefits normally paid to employees upon their separation from service with the City of Westland; however, an employee may pay the monies to the City at an earlier time. Any controversy between any employee and the City that may exist at the time of final payoff as to the amounts that may be due and owing an employee at the time an employee separates from service with the City of Westland, shall not act, nor shall same be construed to act, to relieve the employee from the liability and obligation of paying the monies due the retirement system. Failure to pay the amounts due the retirement system by the employee shall act as a bar to any claims brought by the employee or his beneficiaries against the City

and/or Act 345 Retirement Board and System for pension benefits for the years of military service or prior police service not paid for by the employee as required hereunder.

36.12 Members who retire on or after July 1, 1986, shall be allowed to withdraw their accumulated contributions (with interest) at retirement. Upon such withdrawal, the member's pension shall be reduced by the portion of his retirement allowance which was financed by the member's contribution. The following members may withdraw only the employee contributions that they previously made by means of payroll deductions, plus interest on this amount, without such a reduction to the member's pension: Abramski, Brokas, Buresh, Dexter, Donahue, Gillespie, Glaser, Gould, Handzlik, Hayes, Kaufman, Misener, Pfannes, E. Price, Ryskamp, Sikorski, Speir, Stobbe, Terry, and Vaughan. In order to determine the formula to be used to compute the assumed rate of investment return, the parties agree to rely on a formula to be drafted by Gabriel, Roeder, Smith & Co.; however, it is the intent of the parties that said formula use a PBGC index.

36.13 Effective July 1, 1989, employees shall be permitted to receive a normal retirement after twenty-five (25) years of service, regardless of age at the time of retirement.

36.14 Effective July 1, 1989, employees may receive additional service credit by purchasing past cadet service time prior to employment as a sworn police officer with the City.

36.15 Effective July 1, 1988, the City agrees to pay the five (5%) percent member contribution to the funds of the Act 345 Retirement System for employees who were hired by the City prior to July 1, 2007. Employees hired by the City prior to July 1, 2007 shall receive reimbursement for any such contribution withheld from pay on and after July 1, 1988. Upon separation from service an employee shall not be entitled to lump sum reimbursement of the Employer's five (5%) percent contribution.

36.16 Except as provided in Section 36.5, an employee can only purchase a maximum of six (6) years of prior time, cadet time, or police time.

36.17 Effective upon ratification of this agreement, if a police officer dies in the line of duty, his or her surviving spouse shall be paid a pension and benefits equal to the pension and benefits the officer would have been entitled to receive if he or she had 25 years of service at the time of death (calculated using the base pay of the employee), and said pension and benefits shall continue for the life of the surviving spouse or until the remarriage of the surviving spouse. It is intended that this provision shall supplant and replace the "Widows duty death pension" that is set forth in Section 6(2)(a) of Public Act of 345 of 1937, as amended, being MCLA 38.556(2)(a), as amended.

36.18 The City and the Association agree that they will not negotiate any change in these pension provisions for a period of ten years beginning January 1, 1999.

ARTICLE 42
DRUG POLICY

42.1 PURPOSE

The purpose of this policy is to provide all sworn employees with notice of the provisions of the departmental drug testing program.

42.2 POLICY

It is the policy of this department that the critical mission of law enforcement justifies maintenance of a drug-free work environment through the use of a reasonable employee drug testing program.

The law enforcement profession has several uniquely compelling interests that justify the use of employee drug testing. The public has a right to expect that those who are sworn to protect them are at all times both physically and mentally prepared to assume these duties. Second, there is sufficient evidence to conclude that the use of controlled substances and other forms of drug abuse will seriously impair an Officer's physical and mental health and, thus, job performance. Third, where law enforcement officers participate in illegal drug use and drug activity, the integrity of the law enforcement profession and public confidence in that integrity are destroyed. This confidence is further eroded by the potential for corruption created by drug use.

In order to ensure the integrity of the department and to preserve public trust and confidence in a fit and drug free police department, the department has implemented a drug testing program to detect prohibited drug use based upon a standard requiring probable cause.

42.3 DEFINITIONS

A. Drug Test - The production and submission of urine and/or blood by an employee in accordance with departmental procedures for chemical analysis to detect prohibited drug use.

B. Probable Cause - Cause must be based on specific objective facts, and any rationally derived inferences from those facts, about the conduct of an individual that would lead the reasonably trained person to suspect that the individual is or has been using drugs while on or off duty. Probable cause is that amount of facts and circumstances within the knowledge of a supervisor or the administrator which is sufficient to warrant a prudent person to believe it is more probable that not that an officer is or has been improperly using drugs while on or off duty.

C. Employee - Any individual whether sworn or civilian employed full-time, or part-time, by the Westland Police Department.

42.3 PROCEDURES

A. General Rules

1. All potential police employees, both sworn and civilian, must successfully pass a drug screen during their pre-employment physical examinations.
2. The following rules apply to all employees, while on and off work:
 - a. No employee shall illegally possess any controlled substances.
 - b. No employee shall ingest any controlled or prescribed substance, except under the direction of a licensed medical practitioner.
 - c. Employees shall notify their immediate supervisor when required to use prescription medicine that may influence their job performance. This notification will be in the form of a written memo.
 - d. Any violation of the substance abuse policy shall be immediately reported to the Chief or Deputy Chiefs.

B. Employee Drug Testing

1. The Chief or Deputy Chief may order an employee to take a drug test for probable cause. A written summary of the facts supporting the order shall be made available to the employee prior to the actual test. The test will be conducted at a medical facility agreed to by the Union and Employer.
 - a. If such employee's test is negative, the summary of facts supporting the order shall not be placed in his/her personnel file.
 - b. Test results reporting a presence of illegal drugs or narcotics, or the use of prescription drugs without a prescription or the abuse of any over-the-counter drugs, will be submitted to the Chief or Deputy Chiefs who will make a determination on any dispute, or rehabilitation as needed. In the event of a positive reading, the employee may request a second test at another authorized medical facility, agreed to be the Union and Employer.
 - c. At the time of the original test, the testing facility will draw two samples and adhere to chain-of custody procedures in regard to the care and custody of the samples. After the first sample returns a positive, the employee may request the second sample be tested at a second facility using a mass spectrometry procedure to verify the existence of improper drugs.
2. If an employee under his/her own volition makes the Department aware that he/she has a substance abuse problem of a prescription drug, that employee will be offered a Union and Department approved rehabilitation program. The employee will be held accountable to the conditions associated with the program.
3. Failure to report for testing during the time period the employee is requested to test will be considered the same as testing positive.

4. Persons assigned to the Special Investigative Unit must submit to a drug test as defined above prior to entering into the unit, randomly during the term of service in the unit, and upon exiting the unit.

IN WITNESS WHEREOF, the parties hereto have hereunto set their hands and seals the day the year first written by their respective duly authorized officers and agents.
