If the minimum amount necessary to be levied in any calendar year for the payment of principal and interest on the bonds of a school district issued prior to July 1, 1962, after deducting any funds pledged to and available for the payment thereof, shall exceed 13 mills on each dollar of its assessed valuation as last equalized by the state, then the state of Michigan shall loan such school district the amount of such excess, but all loans so made shall not exceed in the aggregate the sum of \$100,000,000.00 and shall be subject to such terms and conditions as shall be prescribed by law. After a school district shall have received such a loan or loans from the state, it shall thereafter levy each year not less than the said 13 mills until the amount loaned has been repaid and any tax collections in any year over and above the minimum requirements for principal and interest shall be used towards the repayment of such loan or loans. The legislature shall prescribe the conditions upon which levies for bond principal and interest shall be included in computing the amount to be loaned by the state under this section, one of which conditions shall be that the maturities on the bonds of any future issue shall conform with statutory requirements, with the last maturity date not less than 25 years from the issuance date on the bonds.

The tax limitation prescribed in section 21 of this article shall not apply to tax levies for any future issue of school district bonds issued prior to July 1, 1962, including refunding bonds, and such tax levies shall be without limitation as to rate or amount: Provided, That the bonds of such issue last maturing shall be due in not less than 25 years from date of issuance but may be subject to prior redemption in accordance with the provisions thereof.
